Register for EuPath Databases Tutorial

This EuPathDB tutorial will explain:
1. how to register,
2. how to log in with your temporary password,
3. how to change your password.

It is useful to have a EuPathDB account because:
1. All your searches are saved in your account under the “My Searches” tab.
2. You can use the Favorites and Basket tools when you register.
3. You can get news updates sent to your email when we release new database versions.
4. You can add user comments on record pages.

From the EuPathDB home page, click on the 'Register' button in the upper right corner. You can register from any EuPathDB site. You only have to register once and the same username and password can be used at any EuPathDB site.

The 'EupathDB Account Registration' popup will appear.

Enter your email address and other information.

You can choose to receive email alerts from EuPathDB about any database. Just click next to your database of interest.

Once you have entered your personal information and chosen to receive any email alerts, you are ready to register. Click the 'Register' button at the bottom of the page.

When you have successfully registered, a temporary password will be sent to your registered email address. Retrieve the temporary password and return to EuPathDB.org to log in.
Register for EuPath Databases Tutorial

The 'Account Login' popup window appears when you click on the ‘Login’ tab in the upper right corner of the home page. Enter your email address and temporary password and then click the 'Login' button.

After you register for the first time, you will be asked to log in and change your password.

If you are a returning user, you can access your profile from the home page. The upper corner should identify you as a user. Open your profile to change your password.

From your user profile popup, click 'Change Password' in the upper right corner.

Enter your passwords and click change. Choose a new password that does not match any password you use to access sensitive accounts such as your bank or university account.
